

## CIF24 Castle Walls Bulb Planting

Karen Collins, your Volunteering Officer, helped with the co-ordination of the two volunteer planting days (9 and 13 November) and along with Town Councillor Roger Peat who persuaded Rotters to plant out the steeper slopes (too dangerous for the general volunteers to plant out!), it can be confirmed that the majority of the 10,000 daffodil bulbs have been planted. A small number of bulbs have been retained so that any obvious gaps identified following the spring bloom next year can be filled.
